

NCAA & NAIA Eligibility

Student-athletes considering Division I or II collegiate athletics should go online to www.eligibilitycenter.org for a copy of the booklet NCAA Guidance for the College Bound Student Athlete. This booklet lists all academic, athletic and scholarship requirements. Student-athletes can establish an account with the NCAA for registration purposes. A major component of NCAA eligibility is completion of the required number of NCAA approved core courses, labeled in the curriculum guide with the **N** symbol.

Student-athletes considering NAIA sports should visit www.playNAIA.org for information about NAIA academic and athletic requirements and registration.

Meeting NCAA or NAIA eligibility requirements is the responsibility of the student-athlete and family. Students may see their counselor for additional assistance.
